Timber Sale Survey Form

version 1.0

Date:

Forest & District:

Sale name and unit:

Surveyed by:

Surrounding Area Characteristics: N, S, E & W:

<input type="checkbox"/> contiguous forest	<input type="checkbox"/> riparian area: (specify):
<input type="checkbox"/> never logged area	
<input type="checkbox"/> previous thin	<input type="checkbox"/> previous thin (specify):
<input type="checkbox"/> clear cut	
<input type="checkbox"/> tree plantation (specify quality and rate of regrowth):	<input type="checkbox"/> other (specify):

Describe the quality of available *surrounding* forest habitat and species evident:

Area Characteristics:

Geography / Geology:

Elevation: Soil conditions (dry, wet, rocky):

Steepness of Slope: Micro-climate (dry, moist, wet, cool, etc.):

Aspect: Signs of landslides:

Other:

Trees:

<input type="checkbox"/> old-growth (180+ years)	Evidence of Former logging (skid trails, stumps, lack of regeneration in area) describe:
<input type="checkbox"/> mature forest (80-180 years)	
<input type="checkbox"/> never logged	
<input type="checkbox"/> previously logged (approx. age range of trees):	
Examples of large tree diameter (species and size):	
Species and average d.b.h (include overstory and understory):	
% Canopy coverage:	

Amount / Size / Age of downed trees:

Amount / Size / Age of snags:

Signs of fire on trees:

Blowdown and blowdown potential:

Other:
